# SMART CIRCUIT BREAKER

USER MANUAL

It is smart Wi-Fi enabled device that lets you control your lights & electronic devices from your Smart Phone from anywhere at any time.

AC Specifications	
Operating Input Power Range	90VAC-264VAC±5%, 47-63Hz.
Maximum Load	Resistive: 3600Watt (Single Load) Inductive: 3000VA (Single Load).
General Specifications	
Power Consumption	<0.2W no load <1.0W Loaded.
Dimension	115mm x 45mm x 27mm
Wi-Fi Frequency	2.4 GHz
Surge Capacity	3KV
Control Method	Mobile Application, Push Button & Voice Assistants
Enclosure Material	ABS Plastic
Weight	120 Grams
Energy Metering Features(For Circuit Breaker with Metering Only)	
Over Voltage and Under Voltage Protection	When the input supply exceeds 275V or drops below 85V AC, the Circuit Breaker with Metering automatically turns off the load. It can only be turned back on through app control or manual operation.
Over Load Protection	When the load exceeds 16.5 amps, the Circuit Breaker with Metering automatically turns off the load. It can only be turned back on through app control or manual operation.

Check the Wi-Fi signal strength of the device, signal strength should be good, Signal strength should Greater than -50dBm. If it is less than - 50dBm then adjust the router near to the switch board.

Connect the input live and neutral on the left side of the device with the input marking and the loads on the right side of the device as per the output markings.

---

1. Download the SmartLife app onto your smartphone. This app available for both iOS and Android devices.

2. Connect your mobile to 2.4 GHz Wi-Fi network.

3. Enable the Location & Bluetooth in your mobile.

---

4. After installing the device, press and hold the config button for 6 seconds or press and release the button 7 times in 3 seconds duration until the indication RED LED Blinks rapidly.

5.Open the SmartLife App in your mobile.

6.Tap the icon "+" on the top right corner of the 'Smart Life' App, then select Auto Scan, and the device will be automatically discovered and click 'Go to add' on the prompt.
7.Tap the icon "+" besides the bluetooth device.

8.Follow the app instructions to connect the Smart Circuit Breaker to your Wi-Fi network.

9.Once connected, the app will prompt the connection, and click 'Done'.

10.Now control the SMART CIRCUIT BREAKER through the 'Smart Life' App.

11.Once the configuration is completed successfully, the indicator light will turn off, and the device will be added to the 'Device List'.

Search and enable "Smart Life" Skill in Alexa and Google Home. Follow the on-screen instructions to complete the Voice Assistants Setup.

Thanks for choosing
